Pros and Cons

Pros:

- Free
 - Theme templates generalized for many applications
 - Many tools for your use
 - Many colors to choose
 - Digital Fonts, not just categories
 - Move icons easily, rotate, resize them
 - Utilizes basic word processing commands
 - Created for Non-designers
-

Pros and Cons

Cons:

- Limited Free (only 5 pictures)
 - Does not work on Mobile devices (esp. iPad/iPhone) yet
 - Get started tutorial too fast
 - Developer issues (Fix, next version)
 - Image quality problem when printing
 - Difficult to integrate HTML into users existing on-line content, blob or website
-

Educational Uses

- Statistics on Scientific Subjects
 - Scientific Briefings
 - Budget Studies
 - Scientific Polling Studies
 - Factor Comparisons
 - Education Seminar and Classroom Posters
(see Cons)
-

Assignment

1. Create an infographic on the topic of your choice using one of the free templates. Share your infographic on Twitter or file-sharing service of your choice
 2. Tweet a lesson plan idea using Piktochart
